Dove

St. Mary's College of Maryland 1996

Calvert Hall is the home of students and offices of the administrative staff and departments of History and Social Sciences.

Ducks floating in the pond, with the science building in the background, is a common sight. It is also a common noise, particularly at 6:00 am.

The Shoe Tree, located on the path between PG and Dorchester, has quite a history, and an odor. It is said that when students graduate, they throw their old shoes up into the tree.

Sarah Young, Cindy King, Amy Cox, Carly Treppi, Christi Martinson, Jen Dickons, and Brian Doss, are the SOS staff in DC, relaxing for a little cool off time.

A few common sights around campus are the famous peacocks and the even more famous Billy. Billy is always there with his smiling face and an enthusiatic "Hey! How's it going?" while the peacocks, unfortunately, may not be as eager to say hi to those passing by. Artists creating masterpieces can also frequently be seen with their models.

Governor's Cup In 1973, three SMC students: Pete Sarelas, Russell Baker and Dale Rausch had the idea to create a longer and larger race than the regular dinghy regattas. In 1974, their idea became reality when 47 boats entered the 70-mile course from Annapolis to St. Mary's City. A race from the present capital to the colonial capital, also the location of St. Mary's College of Maryland. The race has become a SMC tradition as well as a tradition for many in the racing world, with an incredible post-race party. In June 1986, Yacht Racing and Cruising (now Sailing World) named Governor's Cup one of the top ten postrace parties in the sailing world. (Finally, some acurracy in the partying status of SMC!!) Being one of the biggest, if not the biggest, event hosted by the College, it will surely continue it's successful tradition.

"December 5, 1996 at the Statehouse in Annapolis, Governor Glendening announced that Dr. Jane Margaret (Maggie) O'Brien was named the next president of St. Mary's College of Maryland. After 13 years of dedicated service to St. Mary's College, Dr. Edward Lewis retired and passed the presidency to Dr. O'Brien. Over the last ten years, the College, under the leadership of Dr. Lewis, has recruited 45 faculty members, with 97 percent now holding a doctorate of the terminal degree in their field; increased the student SAT average from about 950 to 1215; doubled the size of the library and constructed a new 60,000 square-foot stateof-the-art science building; renovated existing dormitories and built 81 townhouse units for student housing; and increased private support of the College from \$44,00 to \$1.5 million annually. Dr. O'Brien was unanimously elected by the St. Mary's College of Maryland board of trustees. O'Brien holds a bachelor' degree in biochemistry (1975) from Vassar College and a doctorate in chemistry (1981) from the University of Delaware. She served on the faculty of Middlebury College (Vt.) from 1980 through 1991, moving up the ranks to become associate professor of chemistry and dean of the faculty. She served as dean from 1989-91, when she became president of Hollins College. She is the first female president at the institution in more that 25 years." -- From a December 5, 1995 Press Release

Welcome Maggie and Thank you Ted!!!

Dr. Lewis stands proudly next to his portrait which was painted by his son, Steven. This portrait is hanging on the wall in the library next to the past leaders of St. Mary's. Dr. & Mrs. Lewis are quite the athletic type, jogging in the Farewell to Ted Run. Thanks for your many years of dedication to SMC.

STUDENT LIFE

The complaint "there's nothing to do here" unfortunately can be heard quite often on our beautiful campus. Yes, it's true, there are no shopping malls, or even that much of a nightclub to go dancing at that's under an hours drive away. None of that stops the majority of our students from finding the many things there are to do on our campus. A glance in The Bulletin or a call to Student Development can give you the latest update on campus activities. With just about every club for every interest, anyone can find something to do. A creative, adventurous mind is all that's needed to have fun.

Having these very "innocent" looking young men meeting and greeting the incoming students, can very easily make parents wonder what's really going on in the "jungle" behind those ties and smiling faces. Dorchester is the only all-male residence hall. Within these halls, guys will be making long lasting friendships and bonding all through the night.

Pillows that will be used during the day, computer keyboards that will be busy the night before the paper's due, and fans to help control the sweltering heat of the residence halls during the hotter months are just a few common things you'll see within the dorms.

THE GREAT CARDBOARD BOAT RACE

The Great Cardboard Boat Race, sponsored by the SMC Waterfront, in its third year, is the most popular activity during Parents Weekend. Students are given 2 pieces of carboard, 12 pieces of wood (each about 8'x1"x2"), 3 rolls of duck tape, 2 pieces of plastic wrap (4'x12') and twine. With this material, they have to construct a boat that will be able to go to "Church Point" and back the fasteds and without sinking in the process. There is \$1000 in the pot for the winners of first and second place in two divisions, sailors and nonsailors.

WATERFRONT

The waterfront is always a very interesting place to hang out. A volleyball game is a common sight at the waterfront during nice weather. Kayak basketball, however, is a slightly different sight, not seen quite as often but just as fun.

Kayaking has become a very popular pastime, ever since the waterfront introduce them. It can be a very peaceful activity, or a very wet and entertaining time.

P.S. Proper kayak safety should always be observed for fear of the Waterfront Staff.

AIDS WALK

SMC students are very active in supporting many causes.

Umar Hasan, the former Assistant Director of Student Development and Director of Forensics, is remembered by students and friends in the AIDS Walk '95. Umar passed away due to AIDS on October 24, 1994.

Above: Maria and Zenoby are chillin in front of their Townhouse.

Right: Did you ever notice that when smokers inhale, they have to close their eyes?

Nighthawks caught sleeping on the job. Normally they would be out roaming campus until 2 a.m. escorting and being the eyes of Public Safety in those little hard to reach areas of campus.

Calvert residents are revolting against their permanent quiet hours. Those rebels!!

Left: Jane is hanging out on her Peugeot, just checking out the scenery.

Many students enjoyed the huge BUBBLIN' hot tub that was situated on the grassy lot in the middle of the dorms on the hill. In the dead of winter, no one could ever imagine they would see so many College kids running around in their bathing suits!

Many students learn the tricks of the trade when it comes to sex from THE SEX GUY. His entertaining and laidback yet educational program, had many students laughing about the normally taboo issue of sex.

Honors Day is well attended by many different students to give a wide variety of opinions. Also, we got a free day off school, since we don't believe in celebrating REAL holidays here at SMC!!

CAREER DAY

Many students use career day as a way to launch their future. Having employers from all over the state representing their respective organizations is a great way to make initial contacts and get your foot in the door. This event is sponsored by the Career Center, Internships, and Student Development. Even Ted appears at Career Day. Perhaps he's looking for a new job once he retires from SMC?!?!

Paul Schultheis teaches students about basic car maintance and how to fix minor car problems yourself.

POW Eugene McDaniel tells students about his experiences in Vietnam, where he was a POW for seven years. He lectured on the forgotten POW's of our country and what it means to be an American and National Pride. He is very active in educating the public and lobbying to make sure that the Federal Government

doesn't ignore our POW's.

Since all of us, at one time or another, have eaten in the dining hall, we all know the ups and downs of the food. However, Rita can always be counted on to bring a smile to your grimacing face with her friendly "Hey Baby!" Some exciting new and improved food tables are the ice cream machine and the new salad bar island. The Woods Company is making an effort to make our dining hall a more pleasurable experience.

DRAMA

Happy Ends, the Fall 95
melodrama with songs, was
presented by the drama
department. Music by Kurt
Weill and lyrics by Bertolt
Brecht, the original german
play was by Dorothy Lane. A
little triva fact for drama fans:
it was actually written by
Bertolt Brecht and he gave the
credit to Dorothy Lane.

Left to right Gail, Natalie Wass, Aarati Kasturirangen, Delina Lyon, Jim Eberwine, Andrew Porter Glendinning, Greg Lee, Nora Ludden and Rob Ritzer.

Left to right Nora Ludden, Greg Lee, Natalie Wass, Gail, Delina Lyon and Aarthi Kasturirangen.

SMC DANCE '95

The dramatic arts department presented SMC DANCE '95 in the Fall semester, a dance concert which featured contemporary and traditional works.

Top: Cypress Creek became a very popular band in their years here, playing every opportunity they had from SMC sponsored Brown Bag Lunches to Razzberries to the Green Door.

Bottom: Sol Y Canto was a band brought to our school by the Foreign Language Department giving us a taste of latino music. No one was able to sit peacefully during the performance; everyone's toes were tapping and there was even dancing in the aisles.

Andy Myatt, Cary Fentzloff, Sharon Rebeck and Kim Ruch are ska-ing to some groovy music.

WORLD CARNIVAL

World Carnival is quickly becoming a favorite activity here at SMC. This was the third year for WC and the best attended vet. Honora Batelka and Heather Davis were the master minds behind this extravaganza sponsored by the SGA's Programs Board and Student Developments's Event Coordinators. But these weren't the only people that volunteered many hours to make WC a success, over 40 volunteers helped put on this event which hosted over 2000 people. With events such as human bowling, a dunking booth, the velcro man, the monkey man, the shadow who followed you around, and many more sights to be had. Many live bands such as Jay-Jay, Swampp, Julius Bloom, Scrooby Groove, Hit Me and the new hit Jewel! A good time was all but garanteed.

Many students got to enjoy the beautiful weather and good music at World Carnival . The brave ones even tried out the Human Fly. A huge velcro bouncy thing that was a sight to see and even more fun to do!!

Watch out for the iron ball that might come rolling down the waterfront hill at you if you're not careful. This was another way to entertain us at College, human bowling!

Shindana Cooper is the storyteller who entertained us in Lower Charles and also at World Carnival.

PUBLIC SAFETY

Public Safety has become a very important part of our daily campus lives. From the officers unlocking our doors for us when we get locked out to solving crimes, they are well respected and needed. They are a 24 hour service with 4 Public Safety officers and 3 sworn Police officers, full- and part-time radio dispatchers and student security patrol assistants (Nighthawks as we know them). The are headed by Director Harry Tafe and Assistant Director JoAnn Robinson with Risk Manager Flo Devine.

Calvert Hall

Eric Baugher shoots some pool in the Calvert Hall rec room.

Robert Reif relaxes with his book on the porch of Calvert Hall.

An Interview With Matt Hill, the Calvert Hall RHC.

What was Calvert's most exciting dorm program/activity?

"Mother microphone-open mic poetry/music/drama. Experience with free coffee and grilled cheese. We had fifty people in our rec room, on two different occasions for this."

Can you describe the residents of Calvert?

"Unique. We have a wide and diverse cross-section of students. They have a bizarre sense of humor and <u>love</u> their building. (Because of it's location.)

ALthough sailors are required to put in a lot of time for practices and regattas, there isn't a sailor out there that doesn't enjoy being out there on the water with the wind ripping through their sails.

The sailors at St. Mary's have definately made a name for themselves. Over the past several years, our teams have begun well known throughout the country.

Than You'd Expect

It was a great year for the athletes here at St. Mary's College. School spirit grew

among the students as well as the faculty. Several sports were added to the Varisty list. Field Hockey was only one of them. Several sports are still only club sports. The athletes that participate in these clubs take pride in their games and do just as much work as any varsity player. Men's and women's rugby, men's volleyball, and crew are among the most

popular of these club sports. Although they

have not yet been recognised as varsity sports, the active participants will suredly be

fighting for acceptance.

Besides the addition of sports, we had several awards and records broken over the course of the year. Cindy Davenport broke the record for the most shots made during a woman's four years here at St. Mary's. Overall, it was a very productive year for the athletes and their coaches. Whether you're playing the

game or just watching, have lots of fun.

Rugby players are probably the roughest players out there. Well, next to football players. But these guys don't wear and protection. And to think that they are only a club. With it's growing popularity, rugby will more than likely be a varsity sport within the near future.

Activities

The many clubs here at SMC are one of the things that makes life so interesting. Having a wide range of clubs to choose from, students can find other people who share similar interests. Anywhere from the rigorous schedule of the Crew Team to the laid back Golf Club, to the politically correct Young Republicans. You name it, we have it. And if we don't, you can create it!

Top Jaime Mitchell is obviously having a good time watching the Sex guy.

Middle This is a sight often seen, class being held outside on a nice clear and sunny day.

Left Adria Dorko is looking healthy before a Women's Rugby game, a new club that was started this year and doing very well!

The SGA is not only a very active body of SMC, but a great place to meet people and have lots of fun. Senator Jim Wood, President Jen Dickens, Kim Dennis the Right hand of SGA and Senator Melissa Canlas are a good example of this. Eric Norland is seen at an SGA dinner meeting learning how to cook more of that Mac & Cheese. Below Larry Kontz, Director of Student Development, is having a slight problem when the ceiling caved in under the pressure of a lot of water. The majority of the offices in the corner of Lower Charles had major water damage due to a pipe bursting. Bottom Jim Wood and Joey Hipolito are showing a lot of enthusiam about the upcoming year and working with

Coy Nesbitt.

WAGE member, Jennifer Chapin-Harris and The Crew Team members, Cindy Dey, Bree Detamore and Dan Serene, are recruiting members at the Activities Fair hosted by Student Development.

Women's Rugby is a new edition to the list of clubs. It had an amazing turnout of interested and eager female students ready to play in snow, rain or sun.

FGS

For Goodness Sake is a collection of projects which meet the needs of the community. It was started in 1990 by five students, Carla Maranto and some of her friends with an out reach project to nursing homes. Since that time, it has evolved into a major part of our College community helping better educational and human needs, and now with a new branch, is helping environmental needs as well.

Christmas in April this year had an outstanding turnout for their Auction. Auctioning everything from donated gifts to gifts created especially for this auction. Ben Davis is modeling a very comfortable chair, while almost falling out of it. Stuart Kreindler is handling merchandise for the Christmas in April Auction that went over very well. Even the tie of Provost Mel Endy was up for auction. He got so in to it that he ended up auctioning off his tie, jacket and shirt at the request of an enthusiatic bidder! Qamar Schuyler, bidder #126, shows that she wants some of the action as well.

Top Ellen Sauerbrey lectures the Young Republicans on some very important topics concerning our future.

Bottom Melissa is working hard at making our radio channel be all that it can be. Playing a varity of music and organizing bands to come to campus are just a few of the things that the channel contributes to the college community.
